Supplies:
½ yd main fabric (home décor weight cotton is preferred)
¼ yd lining fabric (quilting weight cotton is preferred)
½ yd pellon craft fuse 808 (or other stiff interfacing)
coordinating thread

Pattern pieces:
Top 6 from main fabric
  6 from lining fabric
Rim 2 from exterior fabric (align pattern piece on fabric fold)
  1 from interfacing (align pattern piece on fabric fold)

Sewing instructions:

1. Sew top of hat.
   
   a. Begin by sewing main fabric top pieces together. Place 2 top pieces right sides together and sew along one curved edge with \( \frac{1}{2} \)” seam allowance. Press seam open with seam allowance to the right side of the seam. Align third top piece, right sides together, with right curved edge of sewn piece, and sew along curved edge. Press seam open with seam allowance to the right side of the seam.
   
   b. Repeat step 1a with remaining 3 fabric top pieces. Attach both top sections along curved edge, right sides together. Sew with \( \frac{1}{2} \)” seam allowance. Clip to seam line in very center and press each side of seam to the right.
   
   c. Topstitch if desired.

2. Sew lining of hat.

   a. Repeat step 1 with lining fabric top pieces.
3. Sew rim of hat

a. Iron interfacing to one of the rim pieces (this one will be the bottom of the rim). Sew straight edge of each rim piece together with ½” seam allowance and press seam allowance open.

b. Pin inside edge of non-interfaced rim to top of hat, right sides facing and matching seam on rim with back of hat top (you choose). Sew with ½” seam allowance.

c. Turn lining of hat right side out, and place inside inner edge of interfaced rim. Repeat step 3b with lining of hat and inner edge of interfaced rim, leaving space 4” gap in seam for turning.

d. Pin outside edge of rim top and bottom pieces together, right sides together, matching up back seams, and sew with ½” seam allowance. Trim.

e. Turn hat right side out through hole in seam. Press rim. Machine-stitch or slipstitch hole closed by hand. You can add a label here before closing, if desired.

f. Top stitch ¼” from outer edge of rim and again ¼” from inner edge of rim to finish.

g. Put it on! YOU’RE DONE!
